

Media Team Help Opportunity:

Members of the Media Team prepare and run the media using a software program known as “MediaShout.” Currently each team member is responsible for preparing and running the media approximately once per month for Saturday evening and Sunday morning. If we get additional help the frequency will be reduced even further. There are special events like Christmas Eve when we provide additional coverage but we know well in advance. General knowledge of computers is most helpful – training is provided and you will be paired up with someone else to make sure you are comfortable doing the services on your own. Pastor Ed provides the outline for the worship service early in the week and later on provides the sermon narrative. We the media team pull graphics/pictures/videos to support the worship service and the contents of the sermon.

To learn more or to express an interest please contact Don Henley at: dehenley@zoominternet.net or call 724-458-4005 or 724-992-4190 OR see Don at church.
